Account Updater Service (AUS), also known as MasterCard Automated Billing Updater will provide updates to merchants who maintain your card information on file, to process your preauthorized or recurring payments such as Netflix and utility companies. First Southern Bank cardholders are automatically enrolled in MasterCard's AUS and benefit from this service since they will no longer have to provide updated card information to participating card-on-file merchants when their card is reissued due to normal expiration. Recurring payments are more likely to be successful because updated card information is readily available to participating merchants. In the event a debit card has been lost or stolen, or fraudulently used, First Southern Bank will provide the updated card status to the network advising the merchant that the card is no longer valid. First Southern Bank will not provide the new debit card information to participating card-on-file merchants. The cardholder will need to contact the merchants to update their account information for card-on-file and recurring payment transactions. First Southern Bank cardholders have the option to opt-out of the service at any time by completing the opt-out section below. If you have opted-out, you may choose to participate in the MasterCard AUS at any time by completing the opt-in section below.

OPT-OUT (NO, THANK YOU): I do not want to participate in MasterCard Automated Billing Updater service for my debit card at this time. I understand that I may request to opt back in to the service at any time, by completing the opt-in section below.

OPT-IN (YES, I WOULD LIKE TO PARTICIPATE): I want to participate in the MasterCard Automated Billing Updater service. Please terminate my prior Opt-Out request. I understand that my debit card information will be provided to merchants who elect to use the MasterCard Automated Billing Updater service. I also have the right to withdraw from the service at any time through a written notification to First Southern Bank.
